

The CardValet® mobile app lets you control debit card usage and spending on the go!

Protect against misuse and fraud. You can turn your debit card off when you're not using it. When your card is "off," no withdrawals or purchases will be approved. Real-time alerts keep you informed when your card is used or declined.

Control spending by store. You can set spending limits for general use or specify by merchant types (e.g., gas, groceries, retail stores). The flexible app lets you change these parameters via your mobile device—simply set your transaction controls to fit your current spending needs.

Control spending by location. CardValet® can use your phone's GPS to limit the geographic range where your card can be used. If the card is used outside of that range, transactions can be declined.

Review balances and transactions. Use the CardValet® app to check your account balances and monitor your finances anytime, anywhere.

Get started today!

Download the app for your Apple iOS or Google Android device.

1 Download the CardValet App and Register Your Cards

Download the CardValet application from the Apple® app store or Google play™

Open the app, and select New User

Enter your 16-digit card number

Enter additional card details as requested

Validate your identity in one of three ways

- Email verification**
A temporary security code will be sent to the email address on record. Retrieve and enter the security code.
- Last four digits of your SSN**
If no email address is on record but an SSN is, enter the last 4 digits of your SSN.
- Conduct a PIN transaction**
If neither an email address nor SSN is on record, you will be instructed to conduct an ATM or PIN-based POS transaction. Enter the transaction amount.
